

Programs

Soar to Success for Students: We invite company recruiters to attend these monthly events on U.S. high schools and college campuses. Businesses present, give advice, answer questions, and interview interested prospects. – We begin these sessions with an intro to our Life Skills Training that teaches us to achieve our untapped abilities, so that we can help ourselves and others to live more fulfilling and productive lives.

HirePatriots.com: Offers Careers and daily Jobs to veterans. – And assists companies with veteran recruiting through our job board, and events.

Entrepreneurism: We build, market, and mentor US businesses. – And we have two business opportunities for new entrepreneurs: **US Military Maintenance**, and **Soar to Success for Students**.

Military Marriage Enrichment: Strong marriages and families are the backbone of every enduring and prosperous nation. We provide retreats for US Veterans with combat related disabilities and their spouses. They have endured so much on our behalf. Now they are struggling through the highest divorce rate of any US demographic.

Awarded by U.S. Presidents GW Bush & Obama
